http://CovidTravellerGFS.com/

Providing details about an individual state you are interested in visiting and how their covid-19 data is for the state's population.
HTML, CSS, JavaScript, jQuery, Triposo API, Semantic UI, Covid state report API,State photographs API,Chart.js

Verde Organiko

Github repo:
Deployed app:

The goal for this project was to create a full-stack MERN web application that will allow the owner to sell their succulent plants not only out of their city in Puerto Rico but also outside of P.R. The user will be able to purchase their desire plants online via Pay Pall Payment method. The user can also contact verde Organiko for detailed instructions of their purchase or any relative questions. The site is set up to be a bilingual page for English and Spanish. The web page is mobile responsive...
Full-Stack MERN App
